

Get Emma's Soft, Gorgeous Curls!

by [Eva Chen](#) May 14, 2009

I just love Emma Roberts' dark hair, don't you? I feel like it makes her stand out in the sea of Hollywood blondes! And I especially love this soft, tousled look she did at the Met Gala... I got the scoop on how to get the look from the owner of [Prive Salons](#), **Laurent Dufourg**, who styled her for the event! Here, the breakdown:

- Begin by blow drying after prepping with **Prive's Foaming Styler**.
- After hair is completely dry, curl sections of hair with a small curling iron (1/2 inch barrel).
- Pin curls with bobby pins for 45 minutes to allow the curls to set.
- After removing the bobby pins, flip hair upside down and brush with a Mason Pearson brush to add volume to the curls creating a tousled look.
- For the final touch, apply **Prive's Finishing Texture Spray** and **Flash Brilliance** for extra texture and shine.
